About the Role

ICICI AMC is looking for experienced Relationship Managers to manage and grow relationships with High-Net-Worth Individual (HNI) and Ultra-High-Net-Worth Individual (UHNI) clients. The role involves providing personalized investment solutions, managing client portfolios, acquiring new clients, and driving business growth through wealth management products and strategic investment advisory.

Key Responsibilities

- Manage and strengthen relationships with existing HNI and UHNI clients by providing strategic advice and customized investment solutions.
- Acquire new clients through referrals, networking, and market engagement.
- Drive revenue growth by optimizing product mix and increasing client assets under management (AUM).
- Promote and advise clients on a range of investment products, including Mutual Funds, Portfolio Management Services (PMS), Alternative Investment Funds (AIFs), and alternative investment strategies.
- Engage with family offices and UHNI clients to develop long-term wealth preservation and alpha-generating investment portfolios.
- Provide market insights and strategic investment advice to influence client decisions rather than relying on transactional product pitches.
- Understand client investment objectives and recommend suitable portfolio solutions.

Candidate Profile & Requirements

- Experience in wealth management, corporate banking, business banking, securities, or asset management.
- Candidates from leading banks, securities firms, wealth management divisions, or AMCs are preferred.
- Experience handling HNI and UHNI client portfolios is essential.
- Strong knowledge of Mutual Funds and investment products is mandatory.
- Good communication, relationship management, and client advisory skills are required.
- Candidates should demonstrate career stability and consistent professional growth.

Preferred Candidate Age: 33–35 years maximum, as specified in the hiring requirements.
