Role Purpose

Responsible for enabling sales through strong product knowledge and supporting the sales team. The role involves conducting product training programs and investor knowledge sessions, achieving product-level targets, and acting as the single point of contact for product-related queries in the assigned region.

Key Responsibilities

- Drive concept selling across the region.
- Achieve product-level targets across Equity and Debt products.
- Conduct regular training and knowledge sessions for internal employees.
- Organize investor meetings, conference calls, and market outlook sessions.
- Support sales teams in improving product mix.
- Provide business and customer insights from branch visits.
- Develop simplified communication for focused products.
- Track and report competitor product positioning and market trends.
- Provide investor feedback on funds and products.
- Accompany Relationship Managers in key investor meetings and manage Family Offices/UHNIs.
